This is the one and only Muv-Luv 1.15 Steam release. The game was released with an unmodified English translation, a Yuri route in the secret endings, and the full, uncensored erotic content (the original XS cards, the erotic content in the PS3 version was removed and replaced with a PG scan). Muv-Luv - Alternative [Steam Version 1.15]-LIVE!!!-1. MSXEA team of 3 people has worked on the MSXE. MSXE is a fan made patch of Muv-Luv. We came together to make the most recent patch (1.15). MSXE aims to be a 100% translation patch, aiming to have everything that can be translated (such as the English text, the MSXE is missing the ending). Finally, MSXE is going to be having all the unused ending lines uncensored. The patch is planned to be posted in the Steam workshop by the end of this year. 4. PS3 Patch Many people have been asking about a patch for the PS3 version of Muv-Luv. We decided to make a port that does NOT use an English translation. Instead, it's a direct translation, meaning the game and the Japanese text stays the same. The patch was developed by Koutaka. We made our port from the PS3 version of Muv-Luv - Alternative. This port has no original scene. Most of the scenes were removed and moved, but we didn't take them out completely. The only scenes that stayed are: Muv-Luv's "I have to go", "Eve would like for you to beat me" and "A romantic night in Tokyo". Then we added two extra ending lines. One is "Muv-Luv" - Alternative [Fan Scene Translation] (in Japanese text). The other line is "All night until morning" (in Japanese text, same as in the eroge). This patch only has English subtitles, so that you don't have to use any other encoding system. Our patch also has the uncensored erotic content, and other fixes and errors. 5ec8ef588b
