You can download the package from this link Download CorelDRAW X6 The CorelDRAW X6 is one of the top graphics software in the world. However, CorelDraw X6 does not have a feature of Exporter, so we have come up with an alternative. This Alternative is the Small size CorelDRAW X6 Version which is completely compatible with CorelDRAW X6 and offer more functions and functionality. We have added some features like The Pasting option, The editing option and the saving option. We have tested and proved that CorelDraw X6 Small Size has got all the features that a professional level tool have. The CorelDraw X6 Small Size cost only \$39.97 compared to the Pro version which is \$399. Corel Draw is a great tool for fun and easy to create your own images for web and print. But we can not use it for every task. CorelDraw Draw X4 is a perfect tool for creating simple drawings, like a line, circle, a spot etc. You just need to pick the shape, choose the size and click on the screen. It's that simple! Now you can do the same with any program including Corel Draw x4. CorelDRAW x4 is very famous for me and I love it. 5ec8ef588b
